ABOUT ORACLE

Oracle (Nasdaq: ORCL) is the world's largest enterprise software company.

Oracle's business is information – how to manage it, use it, share it, protect it. For nearly three decades, Oracle has provided the software and services that let organizations get the most up-to-date and accurate information from their business systems.

Today, Oracle is helping more governments, businesses and healthcare institutions around the world become information-driven than any other company.

ABOUT INTEL

Intel®, the world leader in silicon innovation, develops technologies and products that allow key partners such as Oracle to bring unique solutions to the market.

Oracle Exadata is the result of two decades of engineering collaboration between Oracle and Intel delivering extreme performance for both, demanding online transaction processing and powerful data warehouse applications.

Intel and the Intel logo are trademarks or registered trademarks of Intel Corporation in the U.S. and/or other countries.

Oracle is committed to developing practices
and products that help protect the environment
